MEDEA+ announces call for proposals

[Date: 2004-04-07]

MEDEA+, the industry driven pan-European programme for advanced cooperative research and development in microelectronics, has announced an open call for proposals.

The main focus of the second phase of the MEDEA+ programme is on developing silicon solutions for complex chips on very advanced processes, with short time to market and generating higher margins.

The call is open from 5 April until 17 May, and projects are expected to start from 1 January 2005 onwards. An awareness day related to the call will be held on 22 April in Paris, France, to encourage exchange of information about proposals and bidding consortia.

For further information, please consult the following web address:
<http://www.medeaplus.org/>

Category: Tender
Data Source Provider: MEDEA+
Document Reference: Based on information from MEDEA+
Subject Index : Information Processing, Information Systems; Scientific Research; Coordination, Cooperation

RCN: 21863
